Dear Hiring Manager,

I am writing to express my interest in the Mobile App Developer position at your esteemed organization. With over two years of hands-on experience in cross-platform mobile app development and a strong foundation in UI/UX design, I bring a versatile and solution-oriented mindset that aligns well with innovative and fast-paced teams.

At Brightroots Software Solutions, I developed and maintained high-performance Android and iOS applications using Flutter, Firebase, SQLite, and NodeJS APIs. I've since expanded my expertise through freelance projects where I delivered complete mobile solutions using both Flutter and React Native. My recent work includes a food ordering app, a digital health documentation app (Surgiscribe), and a robust expense tracker—all developed with modern architectures and clean UI/UX designed in Figma.

I take pride in my ability to translate client needs into seamless user experiences while writing scalable, maintainable code. Whether collaborating with teams or working independently, I approach challenges with creativity, discipline, and a commitment to high-quality results.

I would welcome the opportunity to contribute my skills to your upcoming projects and help drive meaningful mobile innovations. Please find my resume attached for your review. I am available at your convenience for an interview and can be reached via

email or phone.

Thank you for considering my application. I look forward to the possibility of working together.

Warm regards,

Davinder Singh
